

# Environmental assessment studies (EAS), from specifications to the appraisal

## International Seminar

### Targeted audience

Project managers :

In charge of the elaboration of impact studies and their collaborators,

In charge of projects submitted to impact study and their collaborators ( prescribers),

Related to environment issues (users).

### Objectives

Reconsider the projects in an environment respectful way

Precise the EAS paper and write it according to the environmental management tools

Master the EAS principles and methodology

Evaluate the EAS quality

Write appropriate specifications for an EAS

Learn, develop and use the modern tools for good EAS.
