

Urban sewerage and drainage planning : design and management of projects

Targeted audience

Managers for the water , sewage and drainage management.
Political, technical and administrative decision-makers.

Objectives

This seminar, thanks to French experience, acquired particularly in large cities like Toulouse , will enable the participants:
To learn the integrated approach methods to urban drainage, the diagnosis of existing systems and the preparation of investment and management methods of drainage services,
To draw up technical and financial specifications for projects,
To learn the different techniques for communication and control for work and services that are sub-contracted.
This course will also improve the participants knowledge of the constraints of the private sector as the public sector, and their understanding of how each one operates, something that is vital for success of common projects.

Paris	From Monday June 25th to Friday July 6th 2007	Registration : Tél :+331 4251 6111 Fax :+331 4251 6131	Session n°47012	4 500 €+ TVA Lunch included
--------------	--	--	------------------------	--------------------------------

Coordination : Mr. Martin SEIDL, CEREVE / H2O
Project manager : Mr. Jorge CAMANO, *Consultant* / Mme PEYREDIEU du CHARLAT-Metratech

Monday June 25th

General information on the sewerage and water management

Institutional framework and operation of the Agencies
Price of the water and management of the public services of water and cleansing

Mrs. Maria SALVETTI
Agence de l'eau Seine Normandie

Tuesday June 26

The European Directives and its contents in term of economic analysis, and economic characterization of the uses of water

Mr. Sophie NICOLAI
Agence de l'eau Rhine-Meuse

Wednesday June 27

Networks of urban sewerage, dimensioning
Collective networks for rain water, design and dimensioning

Mrs. Mounira KAFI
CEREVE ENPC

Thursday June 28th

Alternative techniques of management of rain water

Principles, interest
Applications/Examples

Christian PIEL
Composante Urbaine

Friday June 29

Alternative techniques of management of rain water

Principles, interest
Applications/Examples

Mr. Thierry MAYTRAUD
General Council 93

Monday July 2

Techniques of purification

Characterization of waste water
Basic parameters and measurements
Treatment: decantation/
flocculation/aerobic/anaerobic

M. SEIDL

Tuesday July 3rd

Collective treatment of waste water (1)

"traditional" techniques:
- digesters/UASB
- activated sludge
- bacterial beds/biodisques...

M. SEIDL

Wednesday July 4

Collective treatment of waste water (2)

Alternative techniques "extensive":
- Lagunage
- Purification by infiltration
- planted filter Beds of reeds
- Lagunages with macrophytes/microphytes...
Balance sheet technical and of the dies

M. SEIDL

Thursday July 5

Technical visits

M. SEIDL

Friday July 6

The planning of the sewerage networks
To treat to re-use ?
Planning: concepts, tools, methods

M. SEIDL
