

Road maintenance and its management (including the assistance to the 23e World Road Congress; at the Palace of Congresses, Paris, 17th to 21st September, 2007)

International course

Public:

People in charge of defining policies and evaluating their economical aspects and impact.
People in charge of road maintenance at territorial level in private or public structures.

Objectives:

To define a road maintenance policy.

To make its programming in specific financial and technical conditions (adaptation of the solutions), in a given context (existing organisation, natural conditions, transport and economic objectives).

To implement it on the road network.

Paris	From 17th to 28th September 2007	Inscriptions: Tel.: +331 4251 6111 Fax: +331 4251 6131	Session n° 47016	€4 500 + VAT lunches included
