

Privatisation and regulation of urban services : water, transport and poverty

Targeted audience

Persons in charge for the urban services within the Ministries. Elected officials and persons in charge for the services of conceding local communities, as well as responsables for national and local agencies of the concessionary companies.

Objectives

This seminar aims at consolidating the know-how of the public actors in charge of urban services in front of stakes of the participation of private sector, the urban development and poverty, and to focus on the analysis of the main mechanisms of delegation of management of the urban services and their regulation.

A wide place will be granted (tuned) to the study of practical cases. This method will favor the exchanges between the experts and the participants and the emergence of answers to practical problems met by the trainees in the exercise of their functions.
