

Water management International Seminar

Targeted audience

Managers in administrations and local authorities (Ministry, national and regional agencies...)

Objectives

This course is organised by ENPC with the collaboration of the Réseau International des Organismes de Bassin (RIOB).

Its objectives are to allow the course participants :

To identify the legal, institutional, technical and financial factors that are required for global management of water resources

To select the appropriate solutions for institutional, technical and socio-economic issues,

To manage the framework and procedures necessary for setting up a water agency,
