

# Urban services : organisation, financing, pricing, management

## Targeted audience

Managers of urban services and utilities at a national or local level.  
Political, technical and administrative decision-makers.

## Objectives

This seminar, by presenting the experiences and activities in France and European countries, will allow the trainees to be able to :  
Identify and compare the main organisation models,  
Define the technical and financial resources to be optimised,  
Analyse the management system,  
Evaluate the challenges and possible evolutions.
