

By the end of the seminar, the trainees will have acquired elements of knowledge and methods allowing them to :

- Integrate financial engineering concepts in simulation practice
- Deepen economic and financial models with various scenario occurring during the like cycle of a project

Targeted audience

Project managers for public and private organizations (sponsors, contractors, and governments), financial officers and lawyers involved in project finance (banks, credit agencies...)

Organization

Virginie Pac
Metratech

Coordination

Dominique SCHWARTZ
ENPC
Laurent THORRANCE
Axelcium

Inscriptions

Tél : +331 4251 6111
Fax : +331 4251 6131

Monday, 19th of October

■ 9h30 **J-Olivier LAVAL** PFC-Metratech

Opening of the seminar

■ 10h00 **Laurent THORRANCE** Axelcium

Introduction to PPP projects

- Introduction to the set-up for public-private partnership projects
- Overview of the case studies

■ 14h00 **Nathalie THEODON** Axelcium

Set-up of an economic model

- Principles for setting-up an economic model
- Introduction to financial modelling on Excel spread sheet

Tuesday, 20th of October

■ 9h30 **Dominique SCHWARTZ** ENPC

Project financial structuring and engineering

- Introduction to the financial engineering for a PPP project

■ 11h00 **Cédric CHATEL** Société Générale

- Project Finance structuring

■ 14h00 **Cédric CHATEL**

- Export finance structuring

■ 15h30 **Alexis BONNEL** AFD

- Multilateral and bilateral financing

Wednesday, 21st of October

■ 9h30 **Nathalie THEODON**

Principles of Corporate finance analysis and setting-up of a financial model

- Financial analysis of a PPP project by the ratios

Capital cost and assets valuation

- Capital cost
- Assets valuation methods

■ 14h00 **Nathalie THEODON**

Introduction to regulatory engineering

- Financial mechanisms of regulation

Thursday, 22nd of October

■ 9h30 **Nathalie THEODON**

Financial regulatory exercise according to various scenario occurring the life cycle of a project

- Financial regulation exercises about :

Negotiation during the project initial structuring

Renegotiation due to changing law during the construction period

Friday, 23rd of October

■ 9h30 **Nathalie THEODON**

- Financial regulation exercises about :

Renegotiation due to modifications of the demand forecasts at the start of the operating period

Renegotiation due to external shock : case of devaluation

■ 14h00 **Nathalie THEODON**

Study and assessment of the seminar

- Overview of knowledge
- Test to validate knowledge

■ 16h00 **Jean-Olivier LAVAL**

Evaluations and closing of the seminars

Workdays end at 5:30 pm

This seminar takes place in Maison des Ponts 15 rue de la Fontaine au Roi 75011 Paris
