This seminar aims at consolidating the know-how of the public actors in charge of urban services in front of stakes of the participation of private sector, the urban development and poverty, and to focus on the analysis of the main mechanisms of delegation of the urban services management and their regulation.

A wide place will be granted to the study of practical cases. This method will favour the exchanges between the experts and the participants and the emergence of answers to practical problems that the trainees could have in the exercise of their functions.

Targeted audience

People in charge of the urban services within the Ministries, elected officials and people in charge of the services of conceding local communities, as well as responsible for national and local agencies of the concessionary companies
